# WELCOME !

Welcome to ENS de Lyon ! This document will be your guide through the numerous activities that are now available to you ! This is a totally not suspicious document<sup>1</sup> that will describe to you the school, its surrounding, and activities you can do here !

Whether you like sports, culture, activism, art, partying or everything all at once, you can be sure to find anything you like here. And if you don't, you can always create a club, a music group to make your dreams come true.

We will do this tour, with the mouflon to the left, he is discovering the school, just like you !

(technically, it's a Soay sheep and not a mouflon, but anyways)

<sup>1</sup>there is no hidden message, no need to search for them

What's the difference between those two sites ?

## Descartes campus

Humanities, economy (SHS) courses, and also laboratories in those subjects.

A big garden where you can work during summer (or during winter if you are brave enough).

Don't hesitate to come see the sheeps !

There is also all the flats of the Bonnamour residence.

### with the K-Fêt

For your coffee break, or for going out for a night, come join us in the A building hallway !

You can then sprawl in a comfy sofa and meet people from everywhere. If you like foosball, beginner or professionnall, you will always find people to play with you. There is a lot of events during the year : photo exposures, afterwork parties, and various other animations.

4

## Monod campus

Science, Technology, Engineering and Mathematics (SEE/STEM) courses and also laboratories in those subjects. There you can find the big Merieux lecture hall next to "place de l'école" with the non-working fountain.

There was the former Debourg residence, that is under renovations for this year.

### with the Foyer

Located in the basement floor, the Foyer is not a place, but a concept. It is a must-see where you have access to everything you could need: food, drinks, music, happy mood, people to talk to, ...

Endless source of night traps, you will have a hard time trying to escape the fluffyness of the sofas once your working day is over.

Last but not least: Pay your tab, damn it !

J'♥ MON

The higher order of mouflons has delegated the administration of the school to different humans :

Emmanuel Trizac, president of the ENS

and its Vice-Presidents of Research,

### **Departments**

CS, Philosophy, Geology,  
Social Science,  
Chemistry, Humanities,

### **Services**

Reprography, security,  
communications,  
student life

For a grand total of **2500** students,  
**550** teacher-researcher  
and **500** administrative and techical staff  
(Everyone working for eternal glory for mouflons !)

**And that's not it !**

The school is also made of **thirty associations**, 25 of which are member of the association federation (see page 17).

Some associations have clubs and working groups for even more specific activities, everyone making the school lively.

This document is here to present them to you !

# STUDENT REPRESENTATIVES

The student representatives are a small team of around fifteen people, elected each year to represent the student community at the ENS de Lyon.

To do this, we take part in many of the school's boards and committees, including the board of directors (*in french: CA*), the student life and studies committee (*fr: CEVE*) and many more.

Our role is to defend you as a student and to put forward proposals on all issues that may concern you: organisation of studies, qualifications, quality of life, health, anti-discrimination, etc.

But we're also here to help you with any personal or academic problems you may encounter during your time at the ENS!

If you have any questions, you can contact us via our email address or on instagram, and we'll also be happy to listen to you at our office hours.

So don't hesitate to get in touch - we're here for you!

## FAQ

You can also find a FAQ answering the most frequently asked questions on our website by following this link:

[www.elus-etudiants-ensl.fr/faq](http://www.elus-etudiants-ensl.fr/faq)

## Violence and discrimination reporting system

If you are a victim or witness of discrimination, harassment or SGBV (Sexual and Gender-Based Violence, *fr:VSS*), you can make a confidential report on the ENS website:

<https://ensform.ens-lyon.fr/view.php?id=197347une>

You can then be supported by the action unit and the Equality Mission to discuss the situation in a friendly and confidential atmosphere. We will then be able to suggest actions tailored to the needs of the victim.

## What are we doing in practice?

If you're still wondering what we do in practice, or if the idea of joining us interests you, here are a few examples of actions carried out during our mandate:

- Overhaul of the diploma to adapt it to real-life career paths
- Signing of the Grenoble agreements
- Help with appeals for newly-qualified students
- Work on a fairer system of tuition fees

Here you will find a summary of **yearly events** at ENS de Lyon that **you shouldn't miss out on!** If none of it is of interest to you, you'd be the first! Parties, games, sports...  
Don't hesitate and sign up now!

## TRAQUES CULTURELLES

If exploring Lyon can be quite useful, the different clubs of the school allow you **to discover your own school!** Obscure names like "Foyer" or "Kfêt", legendary ones like "Buisson" or "BDThêk", will hold no more secrets from you! Going through a tour paved with puzzles and pitfalls,  
**8** you will discover everything the clubs have to offer!

You just arrived and don't know Lyon or its culture? The Federation organizes the Traques Culturelles – a fun way **to explore Lyon** with other people just as clueless as you. While going through a themed tour set up by other students of the school, each traque follows its own path – but they all eventually lead to Parc de la Tête d'Or, where you can enjoy the **traditional "traques" picnic !**

## JEU DE PISTE DES CLUBS

The Garden Party is when all the associations and clubs of ENS come together to offer you a full day of festivities: sports, outdoor bar, dancing, music, barbecues, games, and other fun activities!

## GARDEN PARTY

The WEI (Initiation Weekend) is part of the initiation weeks here at ENS! What's planned there? Sports organized by the sports club, games bungalow organized by the BuL, meals with everyone, relaxing by the pool, concerts by students... **You will surely find something to your taste!** We mainly want everyone to spend their WEI however they want. The main goal is to **meet new students** in a relaxing atmosphere!

ENScène organises, in the Kantor theater and other locations in the School, the

Cithémuses Festival, bringing together, as its name implies, cinema, theater, music, and dance!

A dozen events are scheduled where performances and performing arts share the scene.

The idea? **Host** not only ENScène's workshops, but also **professional and semi-professional groups from all over France!**

schedule: crêpes, parties, challenges and above all: more crêpes.

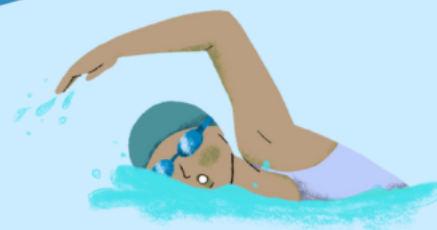

**NOVEMBER  
JANUARY**

We now introduce you to Interludes' little sister from Lyon: the Intraludes! (Yes, the words are similar – you'll get used to it.) Gamer forever or **gamer** for a day, come **share a great time around a board game**, a comic book, a roleplaying game, or a cup of tea during this weekend dedicated to games – all in Lyon.

## INTRALUDES

Do you remember that moment when you chose (or didn't choose) to come here because you knew that **ENS de Lyon was the best ENS** in France and Italy? Well, the Inter'ENS is the perfect time to prove this self-evident truth: 2 days of sports competition against Ulm, Saclay, Rennes, and Pisa!

## INTERENS SPORTIVES

A simple isn't enough for you? The

Gala is here for you! All over Descartes, the biggest party of the year will satisfy everyone with shows, concerts, and DJ sets until the end of the night.

For this great party, a committee of pimos will be assembled in autumn. We're only waiting for you!

In March, after you've participated in the different BDE events of the year, **you'll get to be on the other side** by joining the BDE board! Loads of events will take place during those 3 weeks, and you'll have to handle the fatigue to convince the members to vote for your list!

INTERENS CULTURELLES

## FEBRUARY APRIL

During a weekend, all the ENS get together! Feel like déjà-vu? Well, no! The InterQ are a weekend of festivals by the different cultural associations of the ENS.

Theater, dance, musicals, improv, and memorable parties: **there is something for everyone!**

Whether you are a scenic pro or a complete amateur, **come and show the other ENS that you've got talent!**

For an entire weekend, the 4 ENS get together **to play, sing, drink tea, and share** their passion for games of all sorts. Every year, hundreds of board games, card games, roleplaying games, video games, LARP games, and songs are brought in by the different ENS for **the enjoyment of passionate and casual gamers alike**. It's a weekend with a **chill and relaxed** atmosphere, to spend some good time with gamers of the other ENS around a game or a song.

# FINANCIAL AIDS

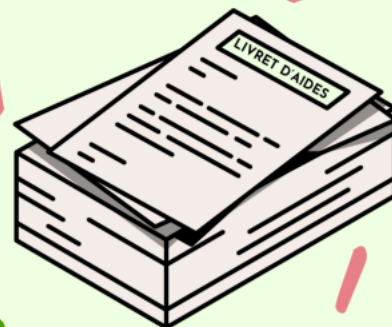

How can I participate in student activities if I am facing financial difficulties?

Many financial aid programs exist, including the Federation's CSE (Caisse de Solidarité Étudiante / Student Solidarity Fund), funded by those who can afford it (don't hesitate to donate if you can), and the FSDIE.

All the aid programs are listed in the aid booklet that comes with the Plaquette; don't hesitate to check it out.

# CHARTER OF BEHAVIOUR IN SOCIETY EVENTS

1

**JUSTE BECAUSE IT'S THE START OF THE YEAR DOESN'T  
MEAN YOU SHOULD BE PRESSURED TO DO ANYTHING**

to follow a group, to engage in humiliating or degrading activities,  
to drink to excess ...

2

**BLOWS HURT AND SO CAN WORDS**

here will be zero tolerance for violence, be it physical or  
moral. Remember that everyone's experience is different:  
do not underestimate the effect that your words and  
actions can have on others

3

**WE DON'T LIVE IN A BUBBLE**

Power dynamics are at work in our environment just as much as  
elsewhere. Our words and our actions at events echo different  
forms of discrimination, some people may be more affected by  
our words than we might think, especially women, non-binary  
people, people of colour, disabled people, trans, queer and  
intersex people, people from unprivileged backgrounds

4

**CONSENT IS KEY**

You must respect everyone's boundaries: ask before you touch,  
remember that no means no, and respect everyone's prerogative to  
withdraw their consent at any time. Consent needs to be explicit,  
specific, revocable, desired, freely given by a person in full possession  
of their faculties.

14

5

**DON'T TURN A BLIND EYE**

If you see anything that doesn't look right, like someone in physical or psychological distress, please intervene or seek out the event's staff for help

**RESPECT THE SPACE, RESPECT THE STAFF**

The staff have hearts, don't break them. Things can break, don't make them. The neighbours need their sleep, don't wake them

6

7

**FREE THE NIPPLE! (... WITH CONSENT, IF YOU PLEASE)**

Make sure everyone's comfortable with you taking your clothes off. Keep in mind that nude or topless people deserve the same respect as everyone else, whatever body type or gender they are

**WATCH YOUR LIQUOR**

Alcohol is no excuse for disrespect. The same goes for any other substance

8

9

**THE PRINCIPLES OF THIS CHARTER ARE GENERAL**

Feel free to apply them in your everyday life, including on social media

**YOUR FREEDOM ENDS WHEN SOMEONE ELSE'S BEGINS**

This charter isn't trying to limit your rights, only to guarantee everyone's well-being and integrity, and to make sure events happen in the best way possible

10  
15

**And which are those associations ?**

Ahhh, now is my favorite part. We will now continue our tour through the diverse associations in the school, grouped (more or less) by theme.

## **First block of associations**

We will start with generic associations. We can find them almost everywhere. Those are the classical associations you expect to see when you arrive, and that make the basis of student life. Those associations organize parties, clubs, sports, events to meet people from everywhere, and even the "federation" which organizes ... associations themselves.

**Let's go !**

### **Note for mouflons reading this page**

**16**

*The higher order of mouflons is already ruling the entire world. To achieve this power, after having understood how it works, you need to know its inhabitants. Then, what's better than associations to quickly meet new people ?*

# LA FÉDÉRATION DES ASSOCIATIONS

The **Federation** is somewhat like a “**super-association**” (literally): its members are associations from ENS de Lyon. Its mission is to provide them with a space for dialogue, represent them to the administration, and offer support in legal, IT, or any other operational matters.

The Federation is mainly involved in planning the start of the association year: this **booklet**, the integration **calendar**, the **forum**, and the **traques** are all overseen by the Federation. It is also the Federation (alongside the elected representatives) that represents you and the associations during the CVEC and FSDIE committees.

**Definitely don't miss:**

## Association Presentations

Mon. 09/01 - 5:30PM  
Amphi Mérieux

## Association Registration Forum

Thu. 09/04 (9AM-5PM)  
Gymnase Descartes

## City Discovery Traques

Saturday 09/06 at 2 PM

## Association Garden Party

And throughout the year: the Federation manages the **events calendar** and **weekly announcements**, as well as the **Student Solidarity Fund (CSE)**, and is open to any inter-association projects!

## SUDOKLUB

At Sudoklub, we love sauce, grills, puns, and cheese smelling feet. Order isn't necessarily contractual (we prefer anarchy instead). If you subscribe to the diffusion list and the Instagram account (it's a family pack), you enter OUR universe, you sign into the sauce brotherhood, and you win a free chamas tacos (satisfied or refunded, we never lie). In those diffs, less and less sudoku and more and more blah blah. The question is why? The answer is why not found a club centered on sudokus and finally make sudokus a side activity, and put at the center of dark lucu(l)brations (subscribing to the Sudoklub is above all increasing one's culture and one's vocabulary). This is a moment to concentrate and find a hobby.

# arcENSiel

arcENSiel is the queer and LGBTQI+ association of the school, whose mission is to offer a space for discussion and hearing to queer students of Lyon, as well as to act for inclusivity, awareness and respect of all genders, sexualities and marginal identities.

Created in september 2016, arcENSiel went through difficult times at its birth before anchoring in the associative landscape of the school. It is for us an occasion to remind that the word "queer" is political. No worries though, we know how to ignite the dancefloor as much as making our voices heard !

Besides, this last point is largely proved each year through the organization of one of our biggest events, Drama Queer, a drag show gathering performers from all around France ! Do not hesitate to join us to organize this year's edition !

### Change of first name :

If you wish to change your first name when coming to the school, there exists a procedure. The person in charge of equality and non-discrimination is responsible for this, you can join them at the following adress: [mission.egalite@ens-lyon.fr](mailto:mission.egalite@ens-lyon.fr)

Even though arcENSiel's team is almost entirely composed of LGBTQI+ people, our events are always open to everyone, no matter your gender, your sexuality or where you come from. So, do not hesitate to join us for a film projection, a reading atelier or a discussion, or even to write to us if you have ideas or questions: we want to hear from you ! Come see us, we have hummus and (lots of) sparkle!

The association proposes different types of events: be it meeting for a Discu'thé to talk about our experience, for a Queer-Sais-Je to learn more and debate on LGBTQI+ and feminist themes, or even at one of the mythic parties co-organized with other associations of the school, there will always be a space where you'll be able to find yourself comfortable.

Les salopettes

We come together around intersectional, inclusive and radical feminism to fight against sexist and sexual violence, discrimination and gender-related injustice, inside and outside school. Les Salopettes are both a place for listening and prevention and an association which organizes all types of events, whether to educate yourself, debate, create, be an activist or share experiences!

We meet in demonstrations, during sign workshops, at our caf  ministes (political discussions and debates), at our sororith  s (safe space to share experiences), at our arpentages (collective reading of theoretical works), around the biblioth  que engag  e (collaborative library in the K-F  t), or even in the evening during our witches' ball... We combine cultural and artistic times with moments of struggle on the ground. Last year we also organized the FemFest, our feminist film festival!

@echarde\_ensl

**ÉCHARDE** is a student union open to all, an autonomous collective where we can act and take part in politics together. By providing information and getting organized, it aims to create a committed and egalitarian voice within the school.

There is a double objective : one is to make at best our own the places where we daily live, and the other is to bring as close as possible to us the struggles that run through the school and our society.

This involves a connection with the different committed association in the school and in Lyon, as well as with the school personnel. If you want to work towards a greater politicization and opening of the school, join Écharde.

Association pour la Libre  
Informatique à l'ENS Lyon

In love with Linux or just eager to learn? Join us at AliENS, the association that promotes free (as in freedom) computing at ENS Lyon!

We help students solving their IT problems during **dedicated sessions**. We also provide unpaid students with **subsidies** for the purchase of a new computer. Last but not least, we organise **install parties** to encourage as many people as possible to install Linux.

AliENS fights for a **fair, accessible and inclusive** digital world. For example, we organize «Azertoutes», one week course free of charge for young non-male high schoolers at the end of August.

We also provide spaces for discussing and working on computer science stuff. The **PE club** is here to help you train for competitive programming. Members of the **Infosec club** learn and participate in CTF, which are cybersecurity challenges.

We also operate several useful **services** for the students of the school and for other associations (e.g. servers, gitlab, overleaf...).

There is a lot of stuff available for anyone working at ENS, like 3D printers, tools, electronic components, etc

## Ancien·nes Élèves (Alumnis)

The association fosters links between generations of people who went through the school, bringing together students, alumni and former students. It runs the community platform [alumni.ens-lyon.fr](http://alumni.ens-lyon.fr), jointly managed with Student Life & Alumni Department of the school. Whether you want to work in public research, teaching or a private company, we can put you in touch with an alumni to advise you, guide you in your thinking or sponsor you. And, of course, you can consult the directory at any time. Feeling lost before you go abroad? Looking for an internship or a university exchange? Don't panic: we're here to support you, guide you and mobilize the alumni network to help you in practical ways. As a member, you'll receive the Bulletin, our biannual magazine, as well as newsletters and invitations to our events and those of the alumni network. You can also take part in meetings co-organized with the school.

So, what do you think ?  
Seems nice, doesn't it ?

We've done it, it's the end of this plaque, translated from scottish to english (yes, the mouflons are Soay sheep, and Soay is in Scotland). Don't hesitate to write to the associations, they will be happy to answer your questions (hoping you will join them some day)

And just before we leave, here is a small glossary of some more ENS vocabulary !
